What does Aesop mean for you?

Visibility

We know that you can't afford to lose instructional time when your regular teachers are absent. You need a clear, real-time view of each employee absence and substitute placement. That's why we developed Aesop.

Aesop is an automated substitute placement service that uses an integrated phone and web system. Unlike traditional sub-calling systems, Aesop's Software-as-a-Service model does not require any hardware or software at the district office. Users simply log in via the web or phone anytime, anywhere. Aesop not only saves countless hours of manual sub-calling, but also offers efficient absence tracking and reporting.

Aesop has become the leading solution for substitute placement because we continually enhance the system based on input from educators. Here are some of the common concerns we've heard and our solutions:

"I need to know every day which teachers are absent and who is taking their place." Aesop's Daily Report offers school secretaries and principals a "snapshot" of all absences and assignments. Aesop also provides a list of available substitutes that is always up-to-date.

"I need some control over which subs are working in my school." Aesop allows principals and teachers to build lists of "preferred subs" and to exclude others. Skill matching, calling sequence and other business rules help to insure that you get the substitutes you want.

"I want to improve communication and coordination between teachers and substitutes." Aesop allows teachers to attach lesson plans or other documents to their registered absences. Substitutes can provide feedback to teachers, and teachers can rate subs based on their performance. These extra communication measures ensure that students are receiving quality education during their teacher's absence.

"I have little time to learn or use a new technology system." Aesop does not obligate principals in any way. You can be as engaged or detached from the process as you wish. Either way, Aesop will be working hard to optimize substitute placement and to support student learning in your school.

"Our positions are being filled by Aesop almost instantaneously in some cases, which is a real plus for our administrators and teachers."

—Director of HR, Pennsylvania

Aesop is here to save you time and meet your district needs. Find out how Aesop is helping over 2,000 districts worldwide provide the best educational experience for their students and personnel.

What does Aesop mean for School Principals?

For you, Aesop means a clearer view of absence management to help ensure effective substitute teaching.
